DATA SCIENCE GRADUATE

First-Class Computer Science graduate with project experience in serverless telemetry and anomaly detection, plus paid online teaching and customer-facing work.

EDUCATION

BSc (Hons) Computer Science, First-Class Honours

Birmingham Newman University, graduated 2 July 2026

PROJECT

SCAFAD, final-year dissertation

Investigated anomaly detection in AWS Lambda environments using serverless telemetry.

ADDITIONAL PROJECTS

Northern Ray

Designed or implemented material parts of an unpaid external-client website and application project. The client later abandoned the project.

Frontend website

Completed a separate frontend-only website project.

EXPERIENCE

Online English tutor

Provided paid online English lessons.

Customer-facing direct sales, Birmingham

Worked directly with customers and recruited, trained or coached new starters.

This was a consumer-facing role.
